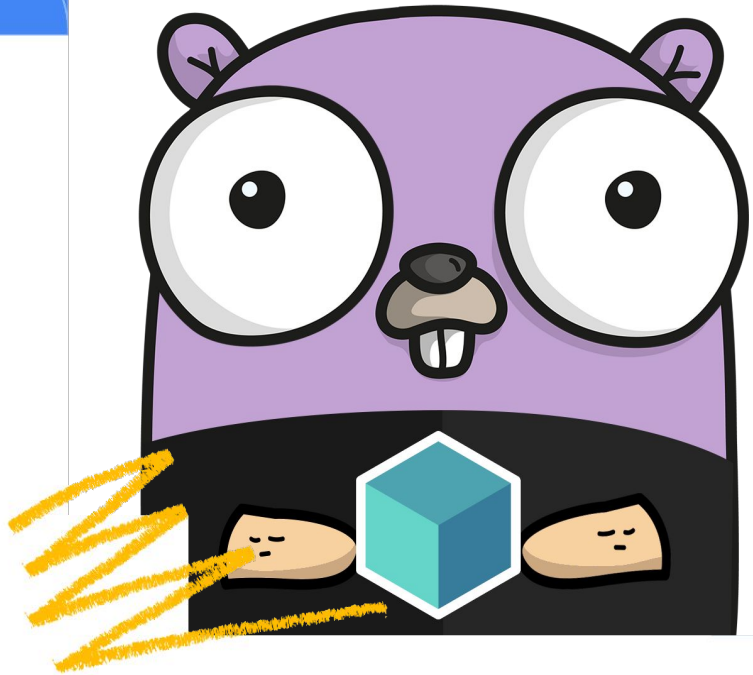
Testcontainers Go workshop



Google Developer Groups

Berlin

Introductions

@mdelapenya everywhere

Manuel de la Peña

Software Engineer - OSS

Docker, TEST Team, since 2024

- Core maintainer of Testcontainers for Go since 2020
- Gopher since 2016
- In OSS since 2011
  - AtomicJar (2022)
  - Elastic (2019)
  - WeDeploy/Liferay Cloud (2017)
  - Liferay (2011)
- Consultant
  - Indra (2008)
- Civil serval (Spain)
  - JCCM (2004)

```
Text(
  'Simple Statement or URL',
  style: TextStyle(
    color: Colors.yellow[200],
  ),
),
```

devfest

```
s.star,
r: Colors.yellow[500],

Text('23'),
```

Testcontainers is an open source framework for providing throwaway, lightweight instances of anything that can run in a Docker container

```
Text(
  'Simple Statement or URL',
  style: TextStyle(
    color: Colors.yellow[200],
  ),
),
```

devfest

```
s.star,
r: Colors.yellow[500],

Text('23'),
```

Testcontainers libraries exist for all popular languages including Java, Go, .NET, NodeJS, and more.

- Java
- Go
- .NET
- Node.js
- Python
- Rust
- Haskell
- Ruby

```
Text(
  'Simple Statement or URL',
  style: TextStyle(
    color: Colors.yellow[200],
  ),
),
```

devfest

```
s.star,
r: Colors.yellow[500],

Text('23'),
```

Spotify

Uber

NETFLIX

JET BRAINS

neo4j

Skyscanner

WISE

elastic

Capital One

INSTANA
an IBM Company

zalando

Playtika

```
Text(
  'Simple Statement or URL',
  style: TextStyle(
    color: Colors.blue[200],
  ),
),
```

devfest

```

```

OSS library - MIT license

Directly consuming what Docker folks distribute!!

Run with “go test”

Simple API to fully customize the Docker container.

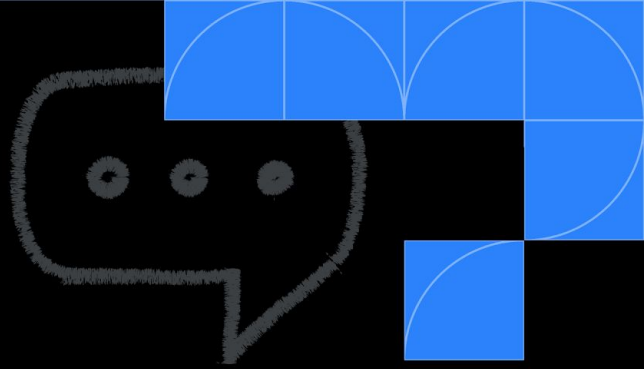
https://github.com/testcontainers/testcontainers-go

```
Text(
  'Simple Statement or URL',
  style: TextStyle(
    color: Colors.blue[200],
  ),
),
```

devfest

```
s.star,
r: Colors.blue[500],

Text('23'),
```



1. First day in the office!!
2. Will maintain legacy ratings app
3. Written in Go!
4. Numbers:
   a. **5** years in production
   b. **4** supporting services
   c. **2** teams
   d. **Zero** tests
